Internship availability

01.07.2024–01.10.2024

Patryk Flama

I started my journey before high school, taking extra courses to learn basic algorithmics and solving more advanced math problems. In high school, I took additional classes focused on competitive programming problem-solving while introducing more algorithms. It inspired me to focus my path on IT and go to the University of Wrocław, which allowed me to combine it with Math.

Education

High School Diploma

XIV High School in Wrocław, 2019–2022

Bachelor of Science

Wrocław Institute of Computer Science and Mathematics,
Oct 2022 – 2024 Joint Studies in Computer Science and Mathematics
Oct 2022 – Present (expected completion 2026 February) Computer Science

Courses

Training for Computer Science Olympiad

LO XIV, January 2020 - May 2022

Practical aspects of software engineering (NOKIA)

University of Wrocław, February 2023 - June 2023

Strengths

Hard-working and persistent, performs well under pressure, motivated and optimistic, eager to work in a group

Hobbies

- Snowboarding, biking
- Problem solving, math
- Playing piano and guitar
- Tinkering, managing homelab and home automation
- Cooking
